

Construction Network is a networking organization that brings together owners with construction service providers.

Construction Network's events showcase public sector owner and private developer capital improvement programs and the resulting contracting opportunities for the AEC and professional construction service industries.

Construction Network provides a high-quality forum for local owners/developers to highlight their design and construction program.

Construction Network operates programs throughout California.

Construction Network's outreach is to over 11,000 in the greater Southern California area and over 3,000 in the San Diego area.

Kelly Asper is the managing partner of Construction Network. She has over 25-years' experience in providing a trusted forum for owners and providers to network.
