

Los Angeles
STREETCAR!

Project Update

Guest Speaker

Derek Benedict, PE

Project Director | EXP

Wednesday, March 17

8:30 - 9:30 am
Presentation

Zoom Webinar Log-in will be provided to all registrants the Monday before the event.

\$89 / person until 3/12/21

Note: Registration closes 3/12/21 at noon.

All registration after that time will only be accepted at a rate of \$129 per person via the CN Office.

The LA Streetcar project has made a lot of progress in the last few years, and we are very excited about the next chapter in the development of this project.

For the past 15 years, Downtown LA has led the way in helping Angelenos to reimagine their built environment. Together, we're building a city that is more connected, active, fun, and sustainable than ever before. The LA Streetcar is the next step along that path – and we're ready to build it today.

With the completion of our federal environmental process in 2019, the project has secured both CEQA and NEPA clearance. The LA Streetcar is now shovel-ready as a result of the advance engineering, design and utility work achieved over the last several years. As we work to lock down final funding commitments, utility relocation could begin as soon as 2021, with project construction and testing from 2022-2025, followed by the beginning of passenger service.
