Zoom Presentation

HYPERLOOPTT

Project Updates

Guest Speakers

Chuck Michael, P.E.

North American Feasibility Studies & Regulatory Advisor

Shelby Phillips, IOM

North American Public Affairs

Founded in 2013, HyperloopTT's global collective of visionaries has made tangible progress towards the widespread adoption of hyperloop systems. HyperloopTT developed the world's first and only full scale hyperloop test track, hyperloop insurance framework and safety and certification guidelines, in pursuit of the first transportation breakthrough in a century.

HyperloopTT is actively engaged with governments around the world, providing critical technical understanding of hyperloop's efficient and sustainable technologies. HyperloopTT is advancing towards development of the first commercial lines for both its zero-emissions products -- the passenger and light freight hyperloop system and the HyperPort cargo solution.

Wednesday, September 14

11 am

Zoom Presentation

**Zoom Log-in will be provided
