Inglewood Transit Connector

Project Update

Guest Speaker

Lisa Trifiletti

Principal - Trifiletti Consulting Inc.

The Inglewood Transit Connector (ITC) Project was awarded a grant of \$407 million from the California State Transportation Agency to support construction of an approximately 1.6-mile automated transit system that will connect the Los Angeles Metropolitan Transportation Authority's (Metro) Downtown Inglewood K Line Station to the City's premier sports and entertainment venues, and housing and commercial centers. With a station serving downtown Inglewood at Market Street, and two stations along Prairie Avenue, the ITC has been designed to provide safe, efficient, and environmentally friendly service to the Kia Forum, Sofi Stadium and Hollywood Park, as well as Intuit Dome, which opens in 2024.
