

Working with the U.S. General Services Administration

Bipartisan Infrastructure Law (BIL) and Inflation Reduction Act (IRA)

The General Services Administration (GSA) is looking for contractors to help us build America through the Bipartisan Infrastructure Law (BIL) and the Inflation Reduction Act (IRA). These pieces of legislation created funds to modernize our Land Ports of Entry (LPOE) and make our Federal Buildings more sustainable respectively. You can learn more about both funds at gsa.gov/real-estate/gsa-properties.

How Do I Work on a BIL/IRA Project?

- Visit gsa.gov/sell-to-government to learn more about GSA's solicitation process
- Find active contract opportunities and submit a proposal at [SAM.gov](https://sam.gov)
 - Projects with active solicitations:
 - Douglas Land Port of Entry
 - Search Notice ID [47PK0124R0001](https://sam.gov/notice/47PK0124R0001)
 - Proposals due March 8, 2024
 - Calexico Land Port of Entry
 - Search Notice ID [47PK0124R0005](https://sam.gov/notice/47PK0124R0005)
 - Proposals due March 21, 2024

Can Small Businesses Work on BIL/IRA Projects?

- Yes! GSA devotes resources specifically to connecting small businesses with federal contract opportunities.
 - To learn more, visit gsa.gov/small-business
- For questions, contact Office of Small and Disadvantaged Business Utilization (OSDBU)'s Pacific Rim Region representative, Anthony Caruso at anthony.caruso@gsa.gov

How do I get an Environmental Product Declarations (EPDs)*?

- EPDs are required to work on IRA projects and will need to be submitted before the contract is awarded.
- Resources to Get EPDs*
 - For a general guide, buildingtransparency.org/resources/ need to register
 - Concrete: Climate Earth or Theta EPD
 - Asphalt: Emerald Eco-Label EPD Tool

*** GSA does not endorse these or any other third-party resources. The above resources are provided just to help get businesses started.**
