about our five-year CIP
plan:

INVESTING IN INFRASTRUCTURE

Eastern Municipal Water District (EMWD) serves one of the fastest-growing regions in California. Despite being California's sixth-largest retail public water agency, our region is just 44 percent built out. Over the next five years, EMWD will continue to invest in our region's water, wastewater, and recycled water needs, including:

\$1 Billion
Capital Improvement Plan

EMWD will invest more than \$1 billion in its five-year Capital Improvement Plan, spread across water, wastewater, recycled water, and general projects. This includes new projects, system expansions, and rehabilitation efforts.

250+
Projects

EMWD's growth-driven Capital Improvement Plan features more than 250 projects at various stages of design, review, and construction. More than 50 percent of those projects are to accommodate anticipated growth.

To learn more about our upcoming projects and how you can be a part of building our future, please visit us at www.emwd.org/work-with-us.

KEY UPCOMING PROJECTS

Project Name	Advertisement Date
Perris Valley Regional Water Reclamation Facility Aeration Blower	April 2026
Temecula Valley Regional Water Reclamation Facility Electrical Modifications	April 2026
Perris II Desalter Corrosion Repair	May 2026
Moreno Valley Regional Water Reclamation Facility Digester Gas Utilization Pilot	May 2026
San Jacinto Valley Regional Water Reclamation North Solar Site Drainage Improvements	May 2026
Cajalco Tank Rehabilitation	June 2026
Riparian Tank Rehabilitation	June 2026
Sun City Tank Rehabilitation	June 2026
Markwood Tank Rehabilitation	June 2026
Matthews Transmission Pipeline	June 2026
Purified Water Replenishment Treatment Plant	June 2026
