INTERNATIONAL AIRPORT
So Cal. So Easy.

We're celebrating a Decade of Local Control at ONT!

November 1, 2025 – November 1, 2026

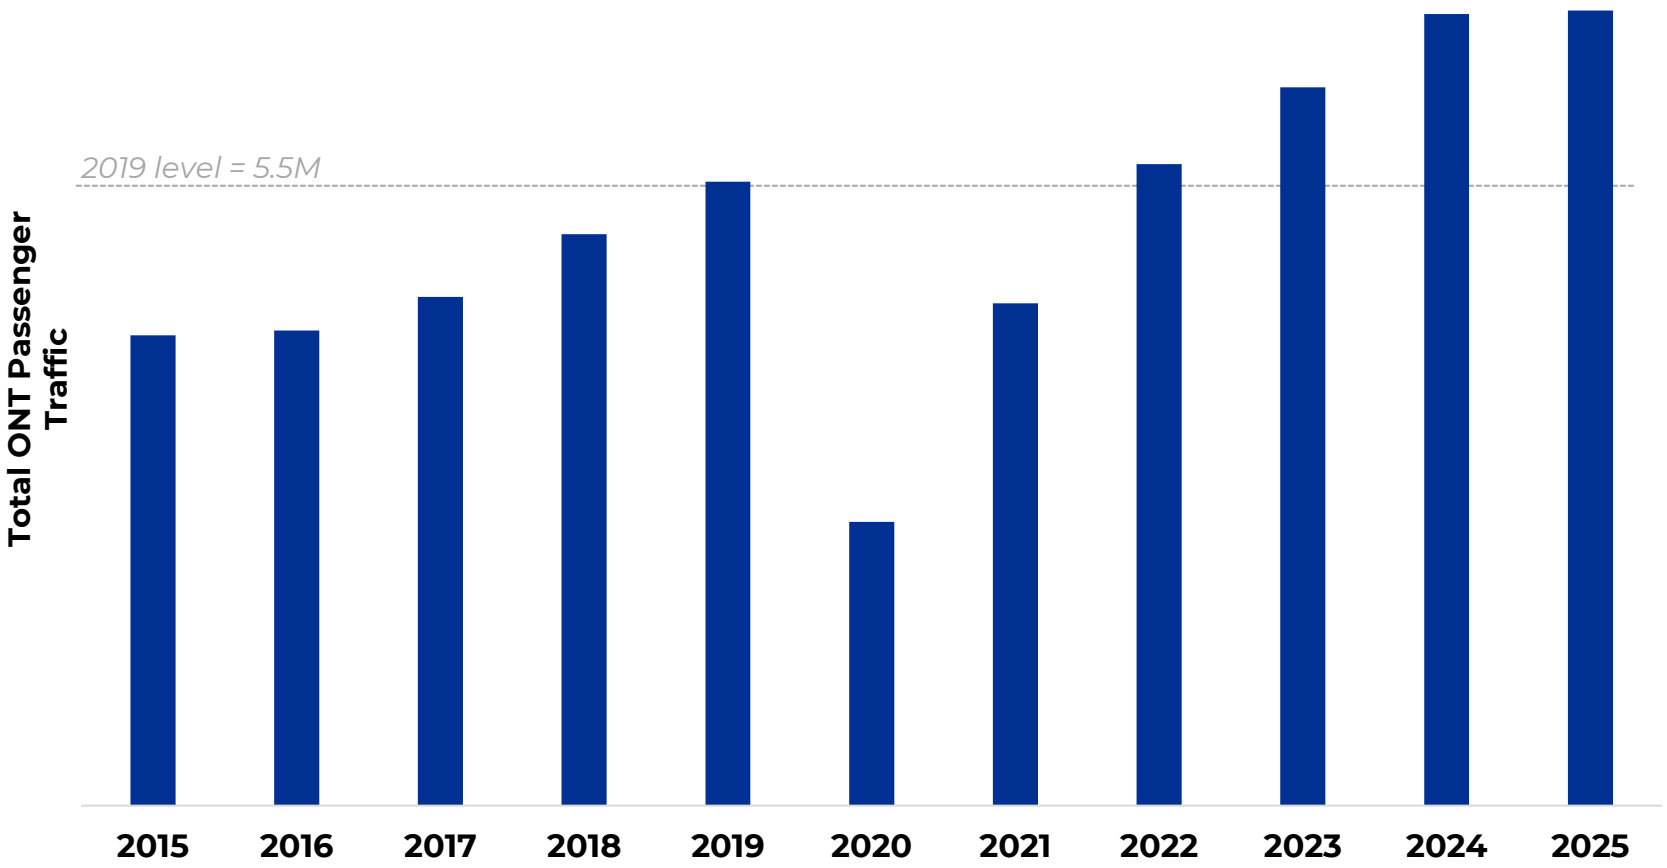

Reclaimed. Revived. Ready.

With your support, we **reclaimed** Ontario International Airport, **revived** this vital gateway and ensured your airport is **ready** to boldly soar even higher in the years to come.

We're celebrating all year long with pop-up events in our terminals and across So Cal, fun giveaways, a big unveiling and so much more.

Visit flyOntario.com/10 to learn more about our story and stay updated on all we've got planned, as we celebrate a Decade of Local Control!

ONT finished 2025 with more than 7.1 million passengers

7,116,735
Total passengers

↑ ***1%*** *vs. 2024*
↑ ***28%*** *vs. 2019*

566,923
Int'l. passengers

Most in airport history

835,129
Tons of freight

↑ ***5%*** *vs. 2024*
↓ ***10%*** *vs. 2020*

ONT Office of Business Opportunities

ONTARIO
INTERNATIONAL AIRPORT
So Cal. So Easy.

OIAA Office of Business Opportunities (OBO)

MISSION STATEMENT

Ontario International Airport Authority (OIAA) values the surrounding communities and local businesses our air travel supports. Through the Office of Business Opportunities, the OIAA is committed to:

Supporting local and small businesses by providing awareness of upcoming opportunities, and education on how to best achieve success for the presented opportunities within the ONT airport ecosystem.

Small Business Program: On the way

CULTURE

ANALYSIS

GOALS

DBE / ACDBE Reevaluation Process

The California Unified Certification Program (CUCP) has completed the federally required reevaluation process, and the DBE & ACDBE new directory is available at https://californiaucp.dbesystem.com/.

What are ONT's OBO next steps?

- Work with FAA to:
  - Update OIAA DBE & ACDBE Program Plan and Triennial goals.
  - Ensure OIAA is reporting to FAA.

What does this mean?

- Once approved by FAA, OIAA can return to goal setting with an approved triennial goal.
- The OIAA can now enforce reporting and monitoring, and request Good Faith Effort (GFE) documentation.

DBE / ACDBE Reevaluation Process Cont.

Previously certified firms can still apply for reevaluation! New firms can now apply for DBE and ACDBE certification as well.

Questions or need assistance, please contact dbe.reevaluation@dot.ca.gov.

Why this is important to OIAA:

- It allows us to better to support our local economy and surrounding communities.
- It keeps monies paid and/or generated in our state and local community.
- Supporting local economic health means supporting small and local businesses, it wouldn't be possible without our DBE and ACDBE partners.

Where do I get certified?

DBE / ACDBE

California Unified Certification Program

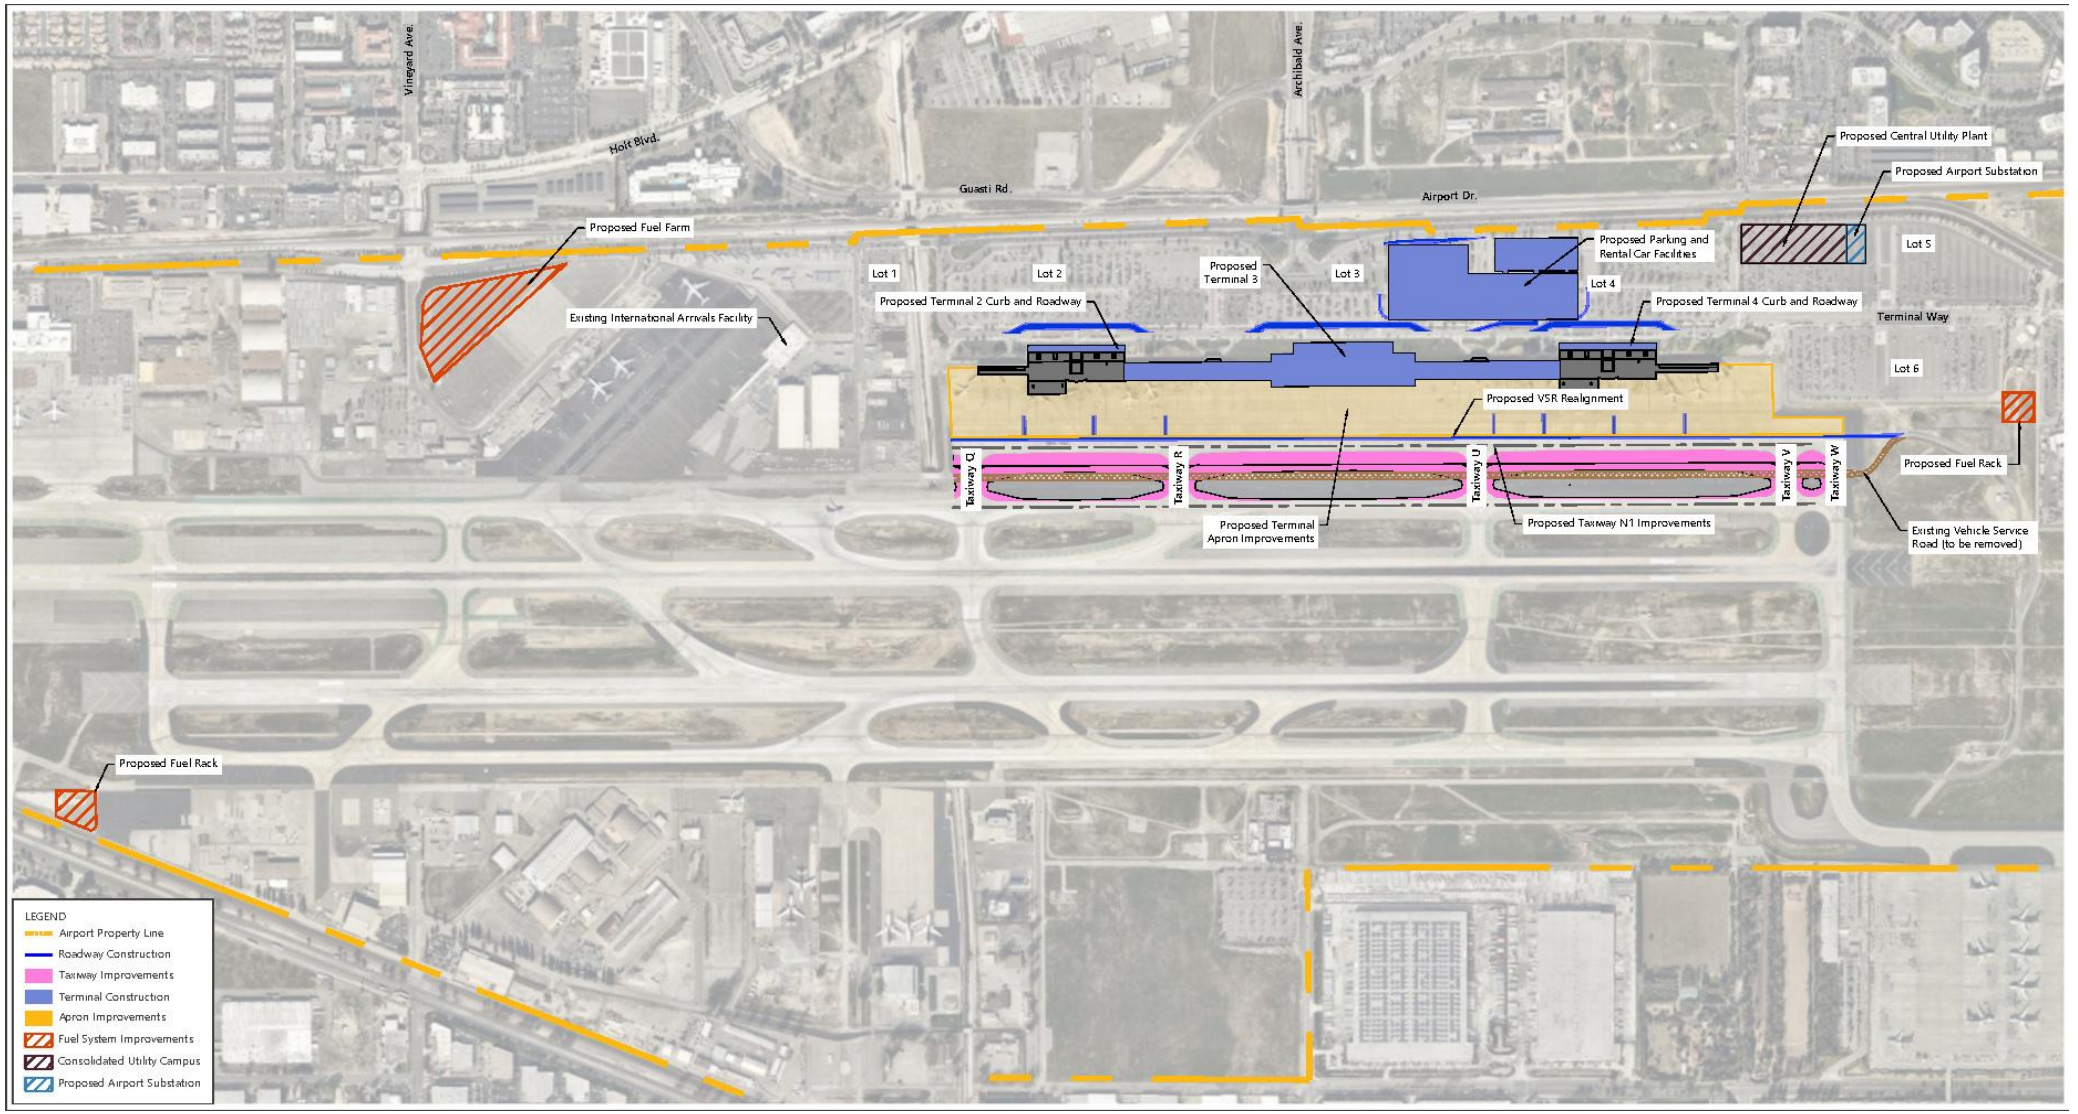

- California Department of Transportation (Caltrans)
- Los Angeles County Metropolitan Transportation Authority (Metro)
- Los Angeles World Airport / City of Los Angeles
- San Francisco Int'l Airport (SFO)
- San Diego County Regional Airport Authority (SAN)

ONT Small Business Program

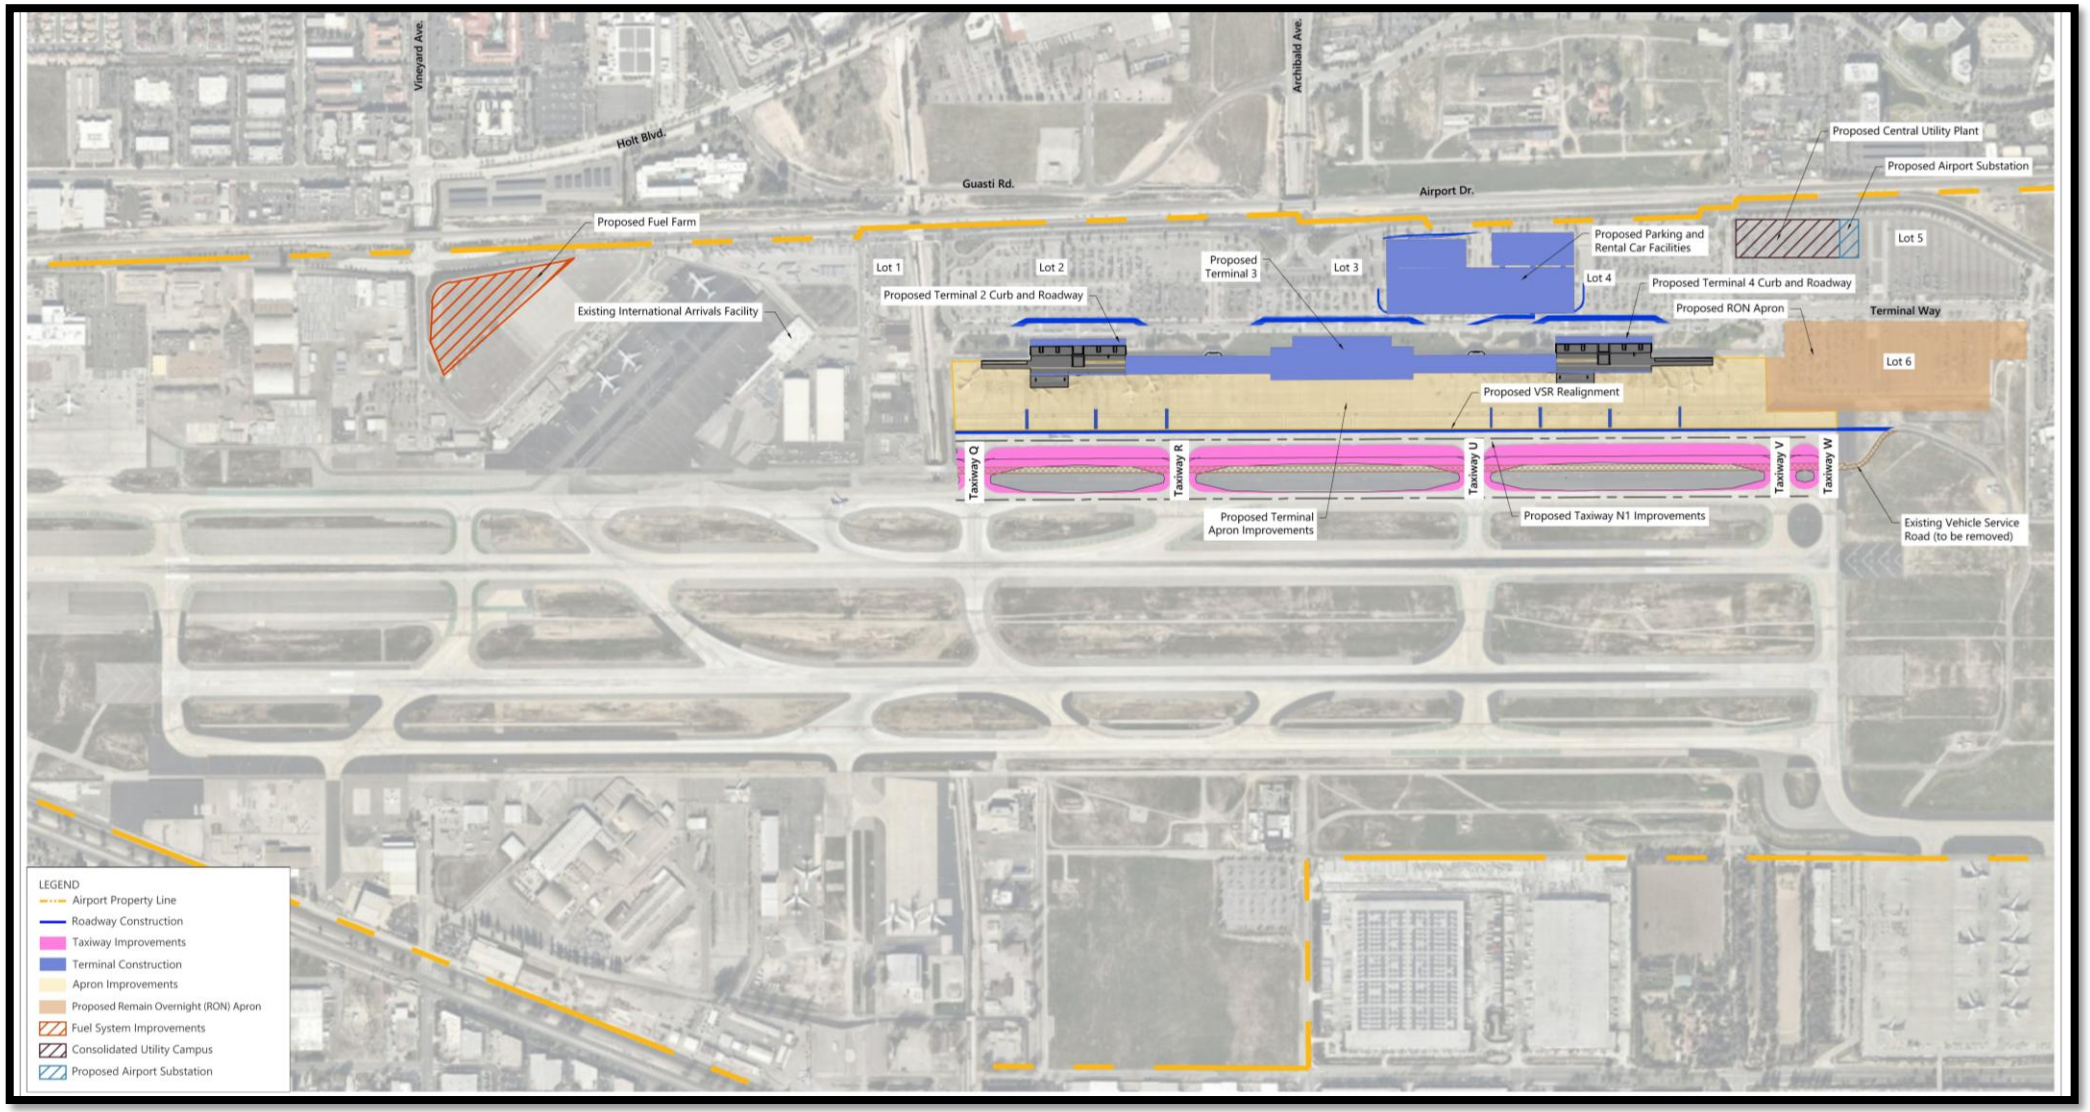

- OIAA has not yet established a definition of SBE (Small Business Enterprise) or SBEC (Small Business Enterprise Concession).
- Our DBE program entails a **Small Business Element**
- If you're DBE certified, you're considered a small business!

BOLD Program

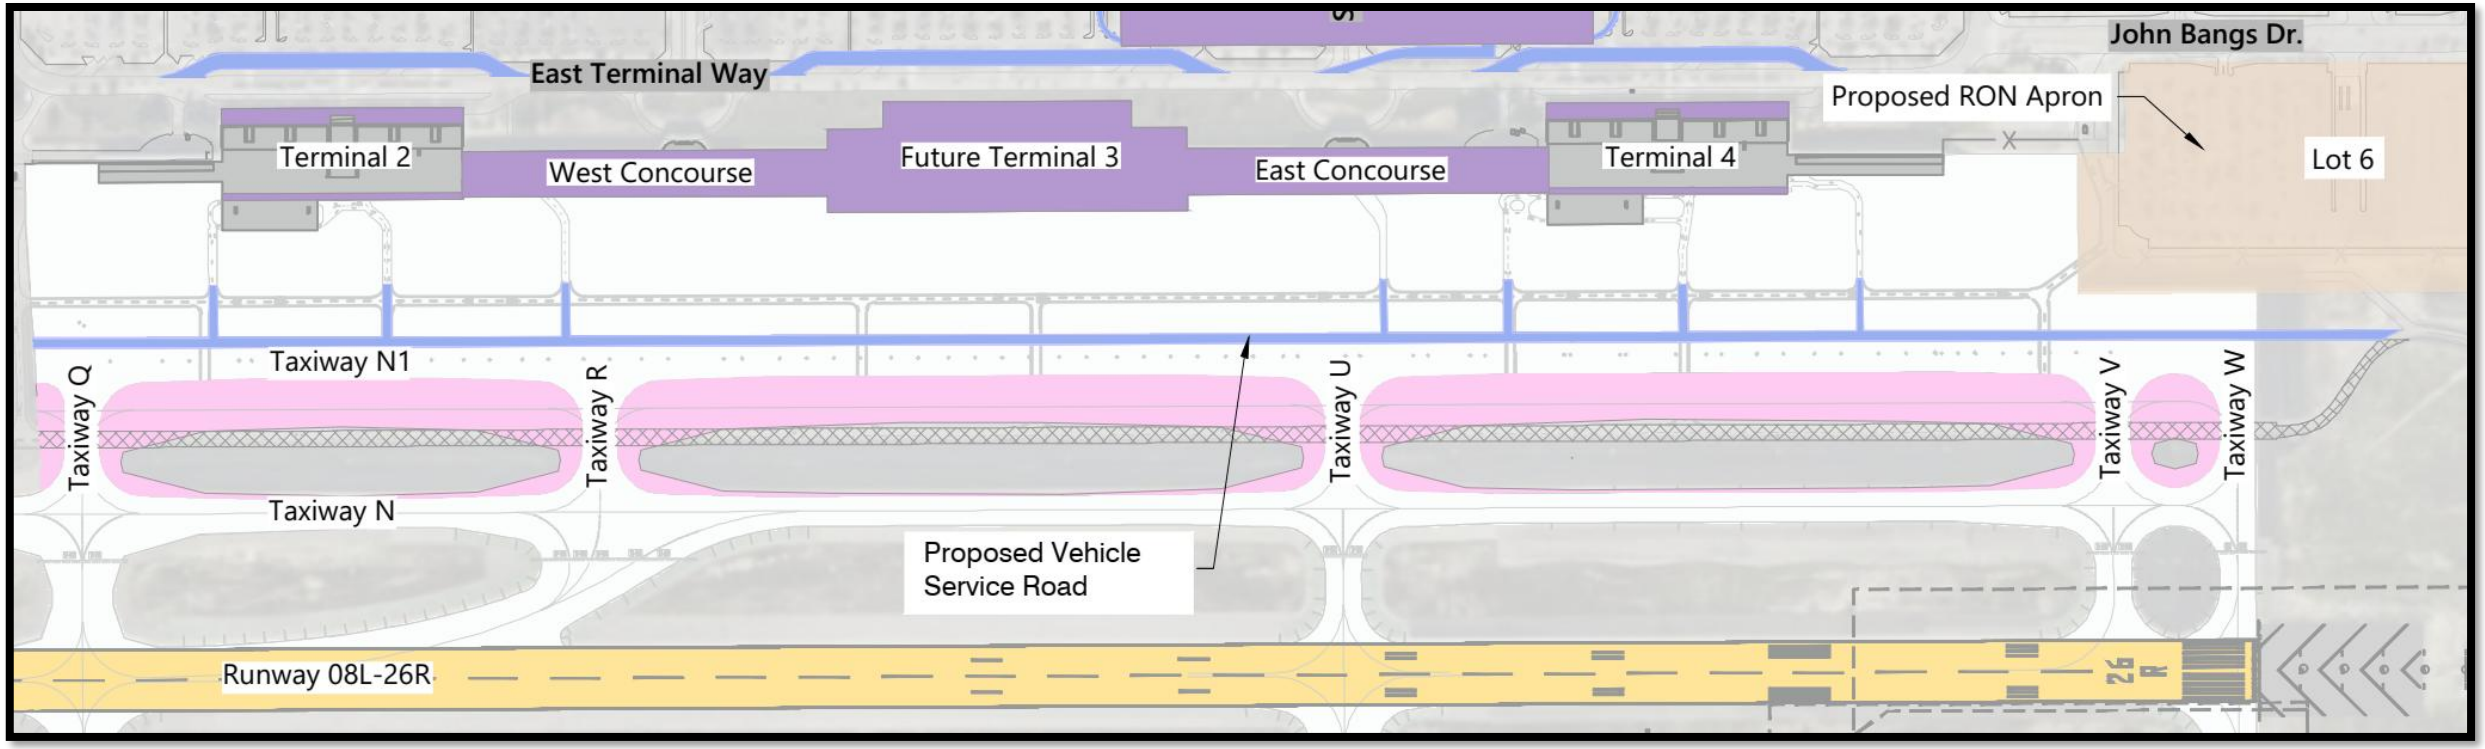

New Gateway Terminal

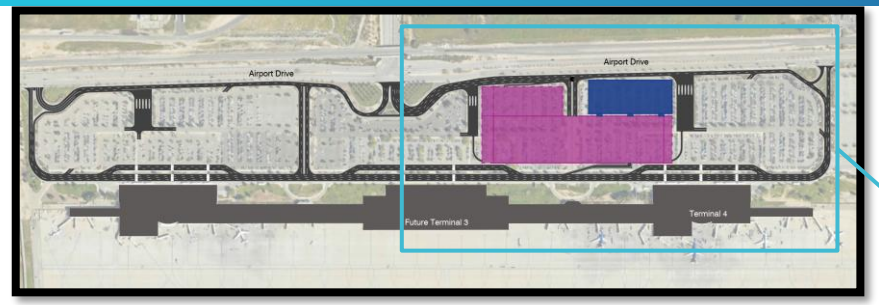

Modernize Terminal 2 and Terminal 4

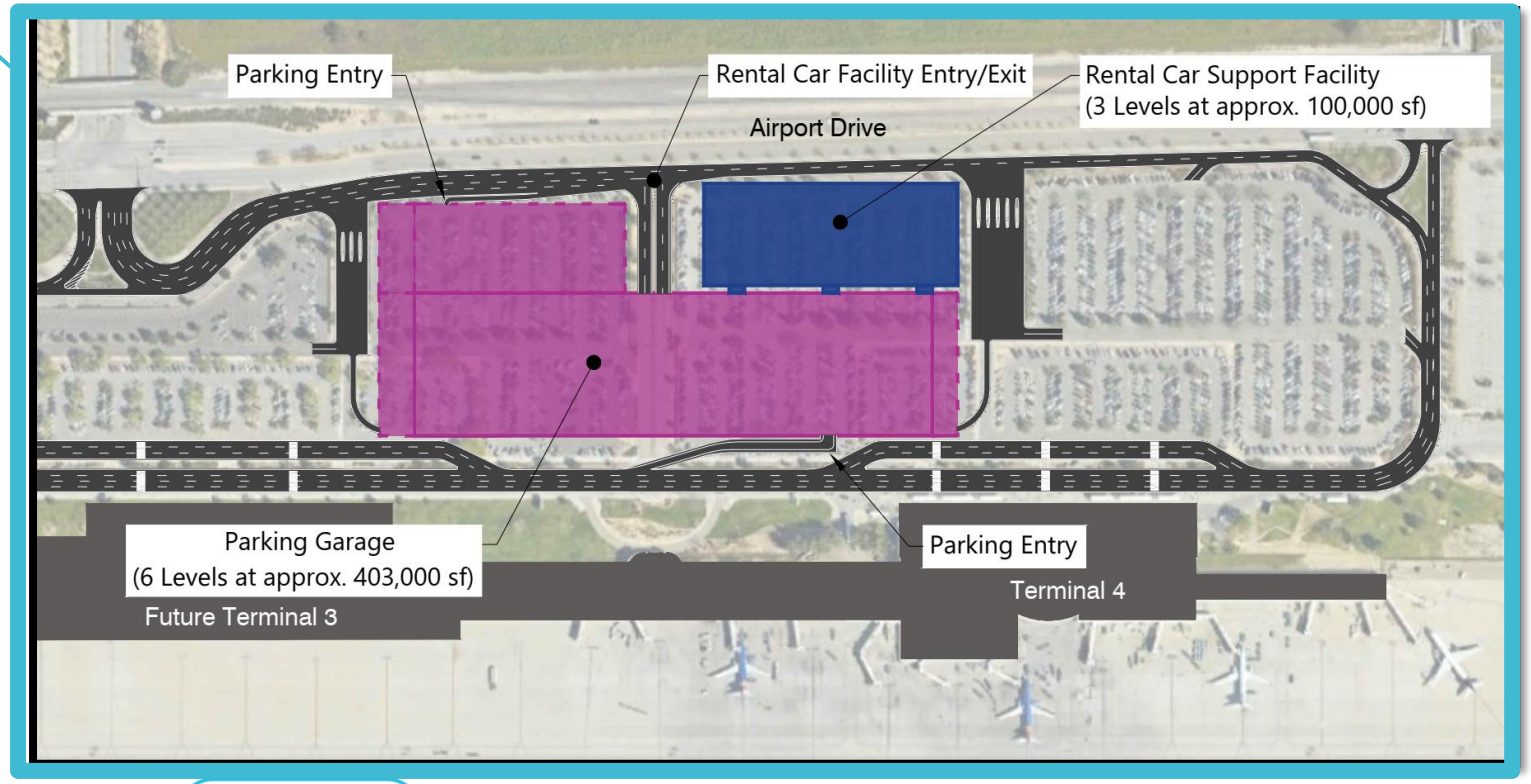

Terminal Airside Improvements

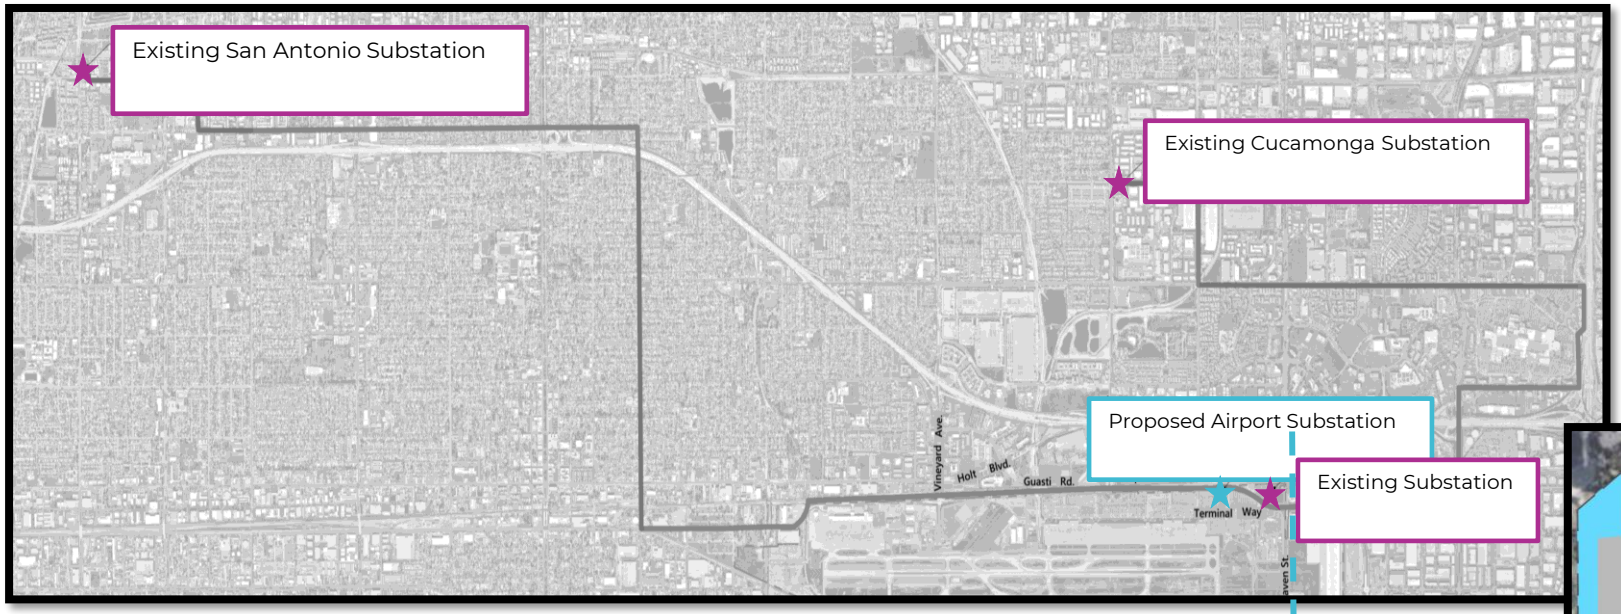

Terminal Landside Improvements

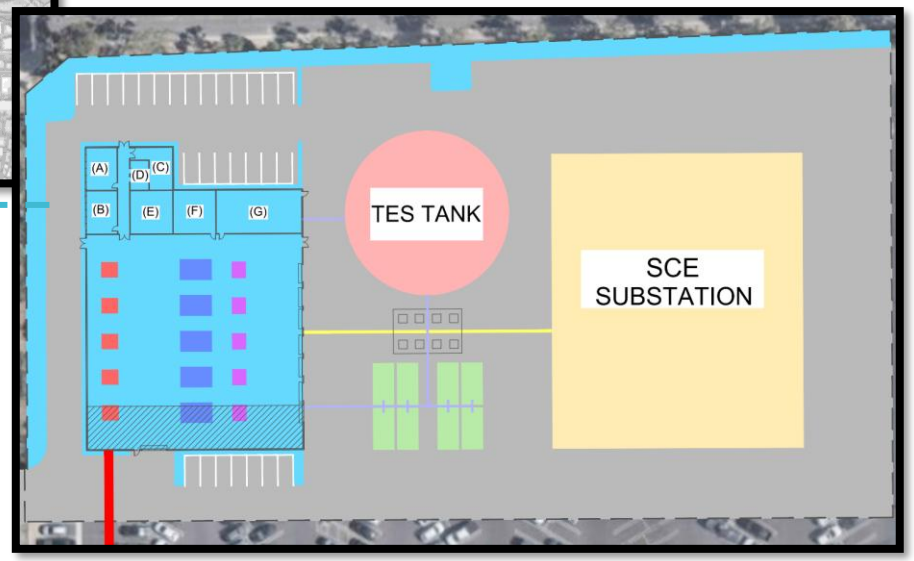

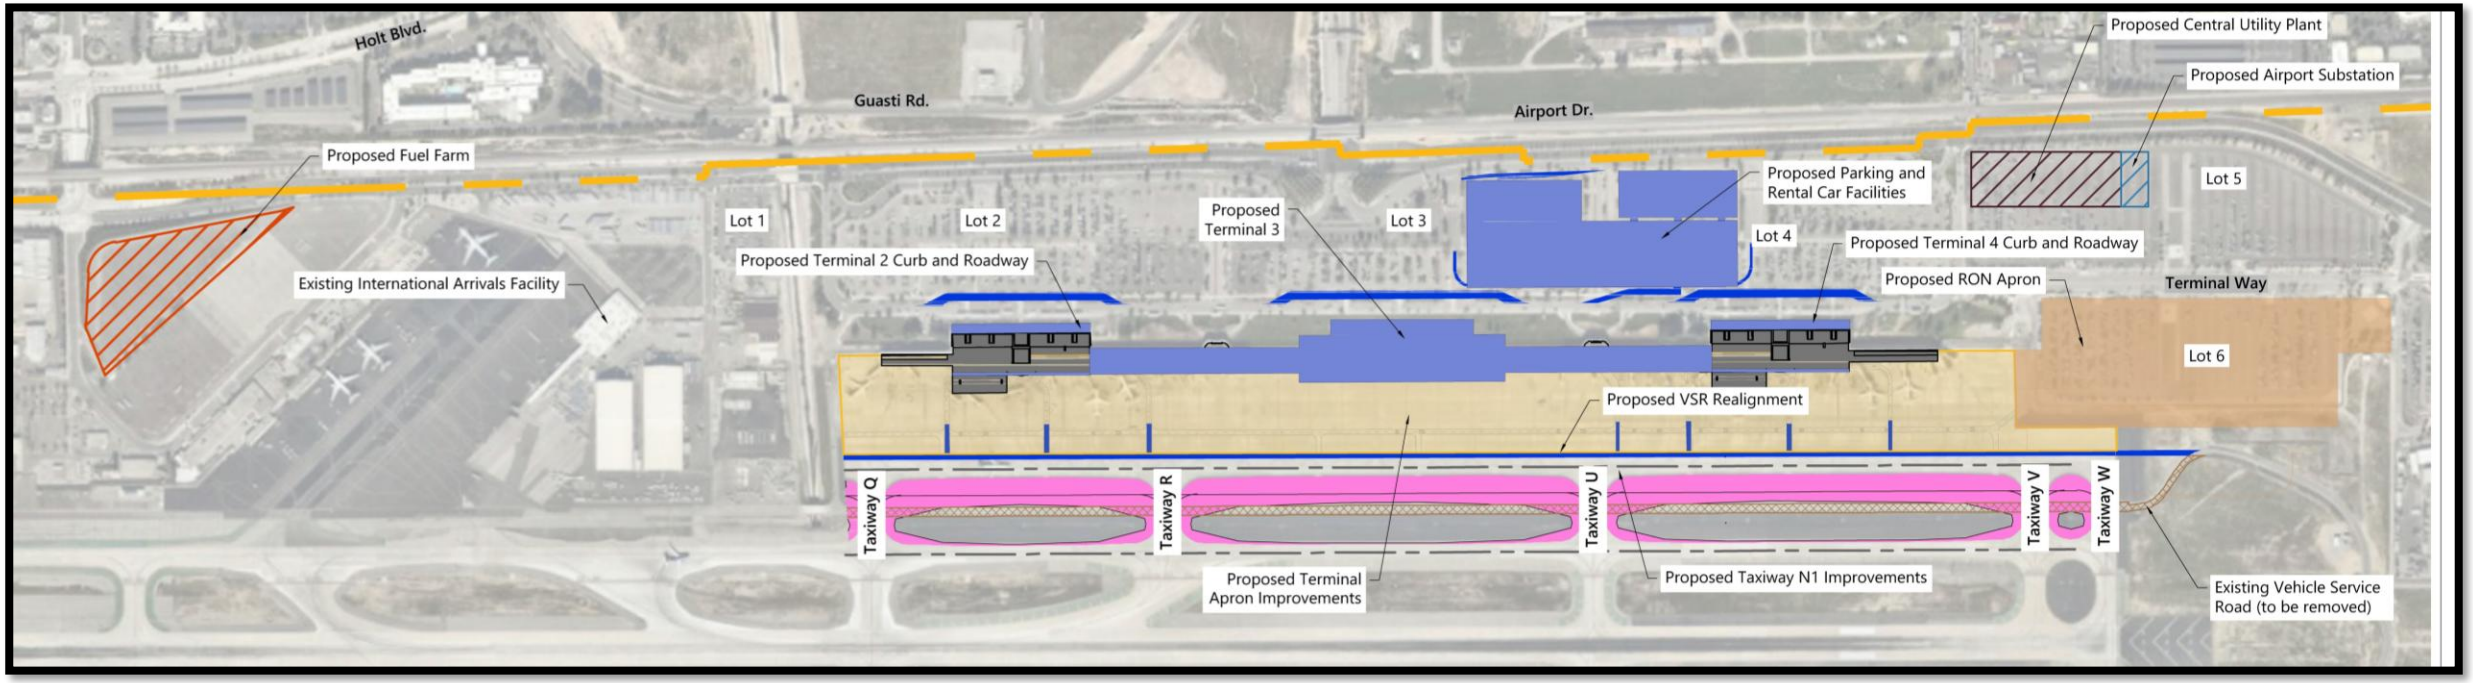

Utilities - Central Utility Plant (CUP) on Airport Property

Central Utility Plant and Substation

Fuel Storage and Distribution

ONT BOLD

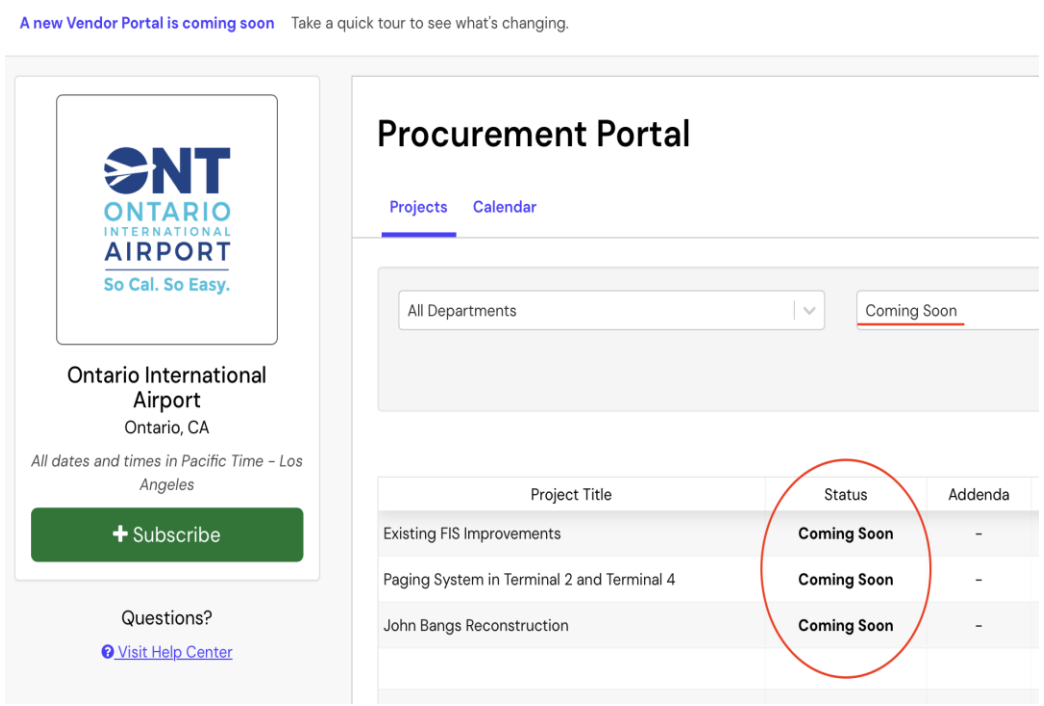

BUILDING OUR LEGACY & DESTINY

The ONT BOLD Program is our proposed vision to inspire travel by transforming your airport's facilities in a way that streamlines the passenger journey from curb to gate while also creating jobs, growing the regional economy and building on our legacy as a global gateway.

Visit **flyOntario.com/BOLD** to learn more about ONT BOLD.

Ontario International Airport (ONT) released a Notice of Preparation (NOP) of an Environmental Impact Report for key facility and infrastructure improvements, including a new passenger terminal, as part of its ambitious ONT BOLD ("Building Our Legacy & Destiny") program. The release of the NOP formally launches the environmental review process for ONT BOLD under the California Environmental Quality Act (CEQA).
